Muscle Max: This class is 100% muscular endurance from head to toe using a variety of equipment to perform strength exercises.

Pilates: Pilates uses a combination of approximately 50 simple, repetitive exercises to create muscular exertion. Exercises can be adapted to provide either gentle strength training for rehabilitation or a strenuous workout vigorous enough to challenge skilled athletes.

Strength Circuit: This class will introduce you to strength training followed by similar movement. It targets strength building and muscular endurance. Can be scaled to any fitness level.

H.P.T. (High Performance Training): This class is composed of a warm-up, strength or skill focus portion, and a high intensity workout of the day (WOD). HPT can be scaled for any level fitness ability!

Spin: Recognized as one of the best low-impact workouts available, our state-of-the art indoor spinners can be perfectly adjusted to suit your fitness level. Our classes will familiarize you with the techniques of spinning while providing a fun and exhilarating group experience; see what the buzz is about! Don't forget to bring water!

Yoga Sculpt: This class combines traditional poses (Asanas) that are held longer than in traditional Yoga flow. The purpose is to apply moderate stress to connective tissue – the tendons, fascia and ligaments, with the aim of increasing circulation in the joints and increasing flexibility.

Yoga Flow: Based on the ancient practice of movement, breathing control and meditation, these asana (posture) classes are presented in the classical Vinyasa (flow) style. This intense class provides the mind-body benefit of yoga exercise in a vigorous format to give you an overall conditioning class to improve balance, flexibility and strength. Intermediate to advanced fitness level.

Functional Strength Training: Focuses on exercises that mimic everyday movements, improving your ability to perform daily tasks with ease and reducing the risk of injury.

Zumba: A fitness class that combines Latin and international music with dance moves, creating a high-energy, fun workout.
